Finn’s African Adventure: A Continent Fact-File

Learning objective: To identify and describe key geographical features and locations within the continent of Africa.

Help Finn the dolphin map out his latest land-based exploration! Use your geography knowledge to complete this fact-file about Africa. You can use your school atlas or geography textbook to help you find the information.

Word bank: Equator · Sahara · Nile · Continent · Savanna · Climate · Landmark

1. Location and Borders: Which oceans border the continent of Africa to the east and the west? (2 marks)

2. Famous Features: Name one major river or one major desert found in Africa and describe where it is located. (3 marks)

3. Climate Zones: Africa has many different climates. Describe what the weather is like in a tropical rainforest compared to a hot desert. (4 marks)

4. Human Geography: Choose one African country. What is its capital city, and what is one interesting fact about the landscape there? (3 marks)

5. Reflect and Connect: If you were planning a trip to visit a famous African landmark, where would you go and why? (2 marks)

Extension challenge: Imagine you are writing a postcard home from your chosen country. Include details about the animals you might see and the temperature of the weather today.
