My Digital Passport: Navigating the Internet Safely

Learning objective: I can identify how to stay safe, healthy, and respectful while using the internet.

About 15 minutes. Grown-up tip: Please read this through with your child to discuss their online experiences and ensure they know who to approach if they ever feel uncomfortable.

Use this template to plan how you will interact with the digital world. Think about how Kit the fox uses clever solutions to stay safe online. Example: For 'Personal Information', you might write: 'I will never share my home address or school name with anyone I do not know in real life.'

Word bank: privacy · block · report · digital footprint · passwords · trusted adult · cyberbullying · secure

1. Personal Information: List three pieces of information that you should keep private online to protect your identity. (3 marks)

2. The Trusted Adult: If you see something online that makes you feel worried, sad, or confused, who are the three adults you could talk to? (3 marks)

3. Digital Kindness: Explain why it is important to treat people with respect online, even if you are not talking to them face-to-face. (2 marks)

4. Reporting Tools: Describe the steps you should take if you encounter a message or image that is unkind or inappropriate. (4 marks)

5. Password Security: Why should you never share your passwords with friends, and what makes a password 'strong'? (3 marks)

Extension challenge: Design a 'Digital Safety Code' consisting of five simple rules that you and your friends can follow to keep your online gaming and social spaces positive.

I did it! Name: _____ Date: _____
