What moves an answer up: Moving from simple phrases to a full, punctuated interaction with correct context makes the answer better.

What a secure answer looks like

A secure answer shows the child understands the context of each phrase (requesting, asking price, thanking). Spelling in French should be encouraged but minor errors are acceptable at this stage.

If your child is stuck

Try reading the phrases out loud with your child. Ask them, 'If you were the shopkeeper, what would you say to be polite?'

Common mistakes to watch for

Confusing 'Combien' (price) with 'Je voudrais' (requesting an item) or forgetting to include 's'il vous plaît' when asking for an item.
