

Finn's Fantastic Biome Blast!

Learning objective: To identify and describe the characteristics of different global biomes, including rainforests, deserts, and tundras.

Join Finn the dolphin on a world tour! Read each question carefully and choose the correct answer. Good luck, explorer!

1. B
2. True
3. Tundra
4. A
5. False
6. Desert
7. C
8. Savanna
9. True
10. Tropical Rainforest

Word bank: Tropical Rainforest · Desert · Tundra · Savanna · Biome

1. What is a 'biome'?

- A) A type of animal
- B) A large area of the Earth with similar climate and plants*
- C) A map of the ocean
- D) A kind of weather forecast (1 mark)

2. True or False: The Tundra is one of the coldest biomes on Earth. (1 mark)

3. Which frozen biome is known for having 'permafrost' (ground that stays frozen all year)? (1 mark)

4. Which of these is a characteristic of a hot desert?

- A) Very little rainfall*
- B) Lots of tall trees
- C) Constant snow
- D) Deep oceans (1 mark)

5. True or False: All deserts are hot. (1 mark)

6. Which biome is very dry and often has sandy dunes? (1 mark)

7. Where would you find most of the world's tallest trees and the highest rainfall?

- A) The Tundra
- B) The Desert
- C) The Tropical Rainforest*
- D) The Grasslands (1 mark)

8. Which grassy biome is found in Africa and is home to lions and zebras? (1 mark)

9. True or False: Plants in the desert have special ways to store water. (1 mark)

10. Which biome is located near the equator and stays warm and wet all year round? (1 mark)

Draw: Draw a picture of a colourful animal living in its favourite biome. Remember to add plants that belong there!

Extension challenge: If you were a scientist, which biome would you travel to first to discover a new species of plant? Write two sentences explaining why you chose that biome.
