# Mapping the World with Finn the Dolphin

*Learning objective: To identify and label the seven continents and five oceans of the world.*

Finn the Dolphin is planning a big journey around the world! Use your knowledge of geography to complete the map below. Follow the drawing steps carefully to help Finn complete his travel log.

**Draw: Draw a large, clear world map showing the outlines of the seven continents. Ensure the five oceans are clearly defined. The style should be clean and simple, suitable for labelling. Use blue for the oceans and a light green or brown for the landmasses. Leave enough space around the edges for labels.**

*Label words: Europe · Asia · Africa · North America · South America · Antarctica · Oceania · Atlantic Ocean · Pacific Ocean · Indian Ocean · Southern Ocean · Arctic Ocean*

## Steps:

1. Step 1: Draw a small circle to represent where you live on the map and label it 'Home'.
2. Step 2: Label the five oceans on your map. Which ocean is the largest?
3. Step 3: Draw a small picture of Finn the Dolphin in the Atlantic Ocean.
4. Step 4: Label the seven continents using the word bank provided.
5. Step 5: Write down one continent that is located entirely in the Southern Hemisphere.
