

Continents and Oceans Fact-File

Learning objective: To learn about the 7 continents and 5 oceans in the world

Read the information below and fill in the fact-file with the correct answers. Use the word bank to help you.

The 7 continents of the world are home to a diverse range of cultures, landscapes, and wildlife. The continents are separated by large bodies of water called oceans. There are 5 main oceans in the world, each with its own unique characteristics. Use the information below to help you learn more about the continents and oceans.

Word bank: Europe · Asia · Africa · North America · South America · Australia · Antarctica · Pacific Ocean · Atlantic Ocean · Indian Ocean · Arctic Ocean

1. List the 7 continents of the world: (2 marks)

2. What is the world's largest ocean? (1 mark)

3. Describe the climate of the Antarctic continent: (2 marks)

4. Name one country located in the continent of Africa: (1 mark)

5. Explain why it's difficult to travel across the Arctic Ocean: (2 marks)

6. (3 marks)

7. Write a short paragraph about why you think the Pacific Ocean is important: (2 marks)

8. List the 5 main oceans in the world: (1 mark)

Draw: Draw a picture of a continent or ocean of your choice. Include the name and any interesting features you have learned about.

Extension challenge: Research a country or culture from one of the continents and write a short report about it.
