

Addition Flashcards

Learning objective: To reinforce addition skills using a range of numbers and word problems.

These flashcards are designed to help you practice addition. On the front of each card, there is a question or key term. On the back, you will find the answer.

What is $12 + 7$?

Calculate $25 + 34$.

If you have 30 apples and you get 15 more, how many apples do you have?

Add 48 and 22 together.

A farmer has 67 eggs. He sells 23 of them. How many eggs does he have left?

What is the total of 99 and 11?

Solve

Add 36 and 43.

$50 + 50$.

If a child has 20 stickers and receives 7 more, how many stickers do they have in total?

What is the sum of 88 and 12?
