

Times Tables Workbook

Learning objective: To practice and understand multiplication using times tables up to 12 x 12.

Use this workbook to practice your times tables. Fill in the missing numbers and solve the multiplication problems. Remember to show your working out and check your answers. Good luck!

Word bank: times · table · multiply · product · factor

1. Fill in the times table:

$2 \times 1 = []$

$2 \times 2 = []$

$2 \times 3 = []$

$2 \times 4 = []$

$2 \times 5 = []$ (2 marks)

2. Complete this times table:

$7 \times 1 = 7$

$7 \times 2 = []$

$7 \times 3 = []$

$7 \times 4 = []$

$7 \times 5 = []$ (2 marks)

3. Apply your knowledge of times tables:

If $6 \times 7 = 42$, what is 6×8 ? [] (2 marks)

Draw: Draw a picture of a garden with flowers in rows and columns. Use your times tables to count the number of flowers in different arrangements.

Extension challenge: Create your own times table questions for a friend to solve and test your times table knowledge further.
