

Celebrating Our Wonderful World: Diversity and Inclusion

Be Kind, Be You, Let's Grow Together!

- Diversity means that everyone is different, and these differences—like our hobbies, cultures, and talents—make our school a more interesting place to learn.
- Inclusion is about making sure everyone feels welcome and has a fair chance to join in, no matter who they are.
- When we listen to someone else's perspective, we learn new ways of seeing the world and solving problems.
- Showing respect means valuing people for their character and being kind, even when we have different opinions or ways of doing things.
- A strong community is built when we celebrate our similarities and our differences equally.

Did you know? Did you know that just like a rainforest needs many different types of plants and animals to stay healthy, our classroom is at its best when we include everyone's unique ideas and talents?

Key vocabulary: Diversity · Inclusion · Unique · Respect · Perspective · Community
