

Kit's E-Safety Fact-File: Staying Secure Online

Learning objective: To understand how to stay safe online, identify potential risks, and know what to do if something goes wrong.

Help Kit the fox create a digital safety guide. Use the word bank to fill in your fact-file. Think about how you can keep your personal information private and who you should talk to if you see something that makes you feel uncomfortable or worried while using technology.

Word bank: Password · Personal information · Trusted adult · Privacy settings · Cyberbullying · Report · Kindness

1. The Golden Rule: What is 'personal information' and why is it important to keep it private when you are online? (2 marks)

2. Strong Passwords: What makes a password 'strong'? Describe the mix of characters you should use to keep your accounts safe. (2 marks)

3. The Trusted Adult: If you see something online that makes you feel worried, sad, or confused, what are the exact steps you should take? (3 marks)

4. Online Kindness: How can you show respect and kindness to others when you are gaming or chatting online? (2 marks)

5. Privacy Settings: Why is it important to check the privacy settings on a new app or game before you start using it? (2 marks)

Extension challenge: Design a 'Digital Safety Poster' using a catchy slogan to encourage your classmates to think before they click. Include three top tips for being a responsible digital citizen.
