

Rosa's Seasonal Calendar: Les Mois de l'Année

Learning objective: To learn and recall the twelve months of the year in French through creative illustration.

Rosa the parrot is helping you create a beautiful seasonal calendar! Follow the drawing prompt to illustrate the changing seasons, then label your work using the French word bank provided.

Draw: Create a circular calendar wheel on your page. Divide it into 12 segments like a clock. In each segment, draw a small symbol representing that month (for example: a snowflake for janvier, a flower for avril, a sun for juillet, and a colourful leaf for octobre). Use bright colours to make your calendar stand out. Ensure every segment is clearly labelled with the correct French month from the word bank.

Label words: janvier · février · mars · avril · mai · juin · juillet · août · septembre · octobre · novembre · décembre

Steps:

1. Step 1: Divide your page into four equal sections. Label each section with the season in French: Hiver (Winter), Printemps (Spring), Été (Summer), and Automne (Autumn).
2. Step 2: Write the three months that belong to the 'Hiver' section underneath your drawing of snow or cold weather.
3. Step 3: Which French month sounds most like the English version of the month? Explain why.

4. Step 4: Label your drawing of a bright sun with the French word for the month your birthday falls in.
5. Step 5: Write the French word for the month that comes immediately after 'juin'.
