

Explore the World: Continents and Oceans

Get ready to embark on a geographical adventure! Let's learn about the amazing continents and oceans that make up our planet.

- The 7 continents are Africa, Asia, Antarctica, Australia, Europe, North America, and South America.
- The Arctic Ocean is located in the North Pole and is surrounded by the continents of Europe, Asia, and North America.
- The Indian Ocean is the third largest of the 5 oceans and is home to many coral reefs and islands.
- The Atlantic Ocean separates the continents of Europe and Africa from the Americas.
- The continent of Antarctica is covered in ice and snow and is home to many penguins and seals.

Did you know? Did you know that the Pacific Ocean is the largest of the 5 oceans, covering an area of over 155 million square kilometres?
