

All About Fractions

Read each fact, and think about how fractions are used in everyday life. Can you draw a picture to show a fraction in the real world?

- What does the top number in a fraction tell you?
- If you cut a pizza into 4 equal parts and take one part, what fraction of the pizza do you have?
- How many quarters make up a whole?

Did you know? Did you know? A fraction is like sharing a chocolate bar equally between friends!

Key vocabulary: half · quarter · third · eighths · numerator · denominator
