

Grade 3 Art Assessment: The Impressionist Style of Claude Monet

Learning objective: To demonstrate knowledge of Claude Monet's techniques, use of color, and the Impressionist movement.

Read each question carefully. Answer in full sentences where required. Ensure your final drawing reflects the artistic techniques studied in class.

Claude Monet was a famous French artist who helped start a movement called Impressionism. He did not like to paint smooth, detailed pictures. Instead, he wanted to capture the feeling of a moment. He often painted outside, known as painting 'en plein air', to see how natural light changed the colors of his subjects. He used short, quick, and visible brushstrokes to show how light danced on water or shimmered over a garden.
