

Adding Up Adventures with Pip

Learning objective: To practice adding up two-digit numbers.

Help Pip collect words by solving addition sums. Each correct answer will help Pip find a new word to add to his collection.

Word bank: ten · twenty · thirty · forty · fifty

1. Find the sum of 23 and 45. (2 marks)

2. What is 56 plus 29? (2 marks)

3. Add 37 and 48 together. (2 marks)

4. What number do you get when you add 19 and 74? (2 marks)

5. Calculate 24 plus 53. (2 marks)

Draw: Draw Pip collecting a word from a flower. What word do you think Pip will find? Write the word below your drawing.

Extension challenge: Create your own addition sum for a friend to solve. What two-digit numbers would you add together? Write the sum and the answer.
