

Max's Division Mastery Flashcards

Learning objective: To recall division facts and understand the relationship between multiplication and division.

Use these flashcards to practice your division skills. Max the monkey says: 'Think of division as sharing equally or grouping numbers together!'

What is the Dividend?	What is the Divisor?
The total number that is being divided or shared out.	The number you are dividing by.
What is a Quotient?	What is a Remainder?
The result or answer to a division calculation.	The amount left over when a number cannot be divided exactly.
Max has 24 bananas to share between 4 monkeys. How many does each monkey get?	What is $48 \div 4$?
6 bananas.	12.
What is the inverse of $36 \div 6 = 6$?	If you have £20 and divide it equally among 5 friends, how much does each get?
$6 \times 6 = 36$.	£4.
Calculate $15 \div 2$.	True or False: Division is the inverse of multiplication.
7 with a remainder of 1.	True.
What is $80 \div 10$?	If $7 \times 8 = 56$, what is $56 \div 7$?
8.	8.
