

Times Tables Worksheet

Learning objective: To reinforce knowledge of multiplication up to 12×12 and apply it in various contexts.

Answer the following questions to show your understanding of times tables. Show your working clearly where required.

1. What is 7×8 ? (2 marks)

2. If a farmer has 9 rows of carrots and each row has 6 carrots, how many carrots does he have in total? (2 marks)

3. A bird watcher counts 12 sparrows in a tree. If each sparrow has 2 legs, how many legs are there in total? (2 marks)

4. Max the monkey thinks that $2 \times 5 = 10$. (2 marks)

5. A classroom has 4 groups of students. Each group has 9 students. How many students are there in total? (2 marks)

Draw: Draw a picture of a farmer's field with 9 rows of carrots. Color each row a different color to show multiplication in a visual way.

Extension challenge: Challenge yourself to create your own multiplication problem and solve it. Share it with your friends and see if they can solve it too!
