

Adjective Adventures with Max the Monkey

Learning objective: To use a range of expanded noun phrases and adjectives to describe a setting and character.

Read the prompt below. Use your imagination to draw the scene on a separate piece of paper. As you draw, use the word bank to help you label your picture with descriptive adjectives.

Draw: Draw a scene featuring Max the monkey inside a hidden, jungle laboratory. The style should be detailed and adventurous. Include: 1) Max, who looks curious and busy. 2) A room cluttered with old inventions, such as clockwork gears, glowing crystals, and stacks of books. 3) A large, arched window showing the jungle outside. Use your pencils to show different textures, like the roughness of old wood or the smoothness of glass.

Label words: glistening · ancient · vibrant · tranquil · towering · mysterious · cluttered · verdant · spacious · enormous

Steps:

1. Draw Max standing in the centre of the laboratory. Label him using two adjectives from the word bank to describe his appearance.
2. Draw three different items Max has found. Label each item with an expanded noun phrase (e.g., 'the dusty, wooden box').

3. Add a window to your drawing. Describe the view outside the window using at least two adjectives.
4. Write a sentence describing the lighting in the room. Use at least one adjective to describe the glow of the crystals.
5. Why did you choose the adjectives you used for the laboratory? Explain how they change the mood of your drawing.
