

Max the Monkey's Recipe for Fun

Learning objective: To understand the sequence of instructions through visual representation and labelling.

Look at the pictures of Max the Monkey making a healthy snack. Colour in the numbered steps, then label the parts of the snack to show you understand the order!

Colour this: A large, clear outline drawing featuring Max the Monkey wearing a small chef's hat. Next to him are three numbered circles. Circle 1 shows a picture of a whole apple. Circle 2 shows an apple being sliced. Circle 3 shows the slices inside a large mixing bowl. There are simple, clean lines suitable for a 3-5 year old to colour. Max is holding a wooden spoon, and there are patterns of bananas and grapes on the table for extra detail.

Steps:

1. Label the bowl in the picture.
2. Label the fruit in the picture.
