

Max's Magnificent Market Maths and Mystery

Learning objective: To develop retrieval, inference, and analytical reading skills through a literary text, meeting Year 5 English requirements.

Read the short story below carefully. Answer the questions that follow, ensuring you use evidence from the text to support your points.

Max the monkey stood at the centre of the Whispering Woods Market. His tail twitched with excitement as he surveyed the stalls. He was not there to buy bananas; he was searching for the fabled Silver Cog, a missing piece from his latest mechanical invention. 'Excuse me,' Max asked a badger merchant, 'have you seen a small, metallic circle with twelve teeth?' The badger grunted, 'I sold a trinket like that to a magpie for £4.50 this morning. She flew towards the Tallest Oak.' Max thanked him, noting the meticulous way the badger arranged his acorn baskets. He knew that to solve this puzzle, he would need to track the magpie before the sun dipped behind the horizon. He calculated the distance to the oak—roughly three hundred metres—and tightened his shoelaces. The adventure was only just beginning.
