

Rosa's Seasonal Calendar Challenge

Learning objective: To recall and sequence the months of the year in French and understand how they relate to the seasons.

Rosa the parrot has mixed up her seasonal calendar! Help her sort the months into the correct season. Write the French name of each month in the correct column. Use the word bank to help you spell them correctly.

Word bank: janvier · février · mars · avril · mai · juin · juillet · août · septembre · octobre · novembre · décembre

1. Le Printemps (Spring): List the three months that belong to spring in France. (3 marks)

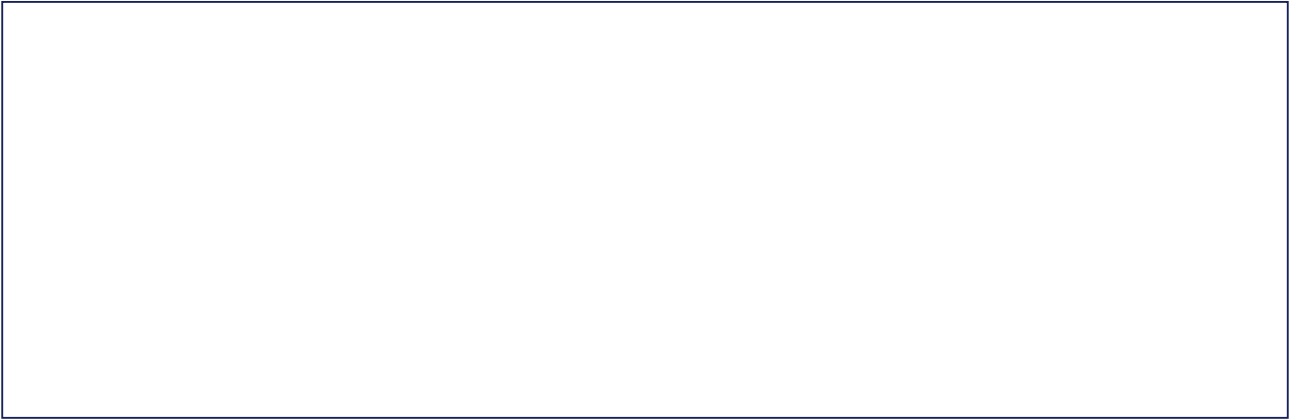

2. L'Été (Summer): List the three months that belong to summer in France. (3 marks)

3. L'Automne (Autumn): List the three months that belong to autumn in France. (3 marks)

4. L'Hiver (Winter): List the three months that belong to winter in France. (3 marks)

5. Which month comes after 'juillet' and before 'septembre'? (1 mark)

Draw: Draw a tree in the centre of the page. Around the tree, draw four small circles representing the seasons. In each circle, draw an item that represents that season (like a snowflake for winter or a flower for spring) and write the French name for the season nearby.

Extension challenge: Pick your favourite month of the year. Write a sentence in French explaining why you like it, for example: 'J'aime juillet car il fait chaud' (I like July because it is hot).
