

Finn's Amazing North American Adventure

Grab your map and join Finn the Dolphin as we dive into the wonders of North America!

- North America is the third-largest continent in the world and is made up of 23 different countries, including Canada, the USA, and Mexico.
- The Rocky Mountains are a massive mountain range that stretches over 3,000 miles from the northernmost part of Canada down into the United States.
- The continent is surrounded by three vast oceans: the Arctic Ocean to the north, the Atlantic Ocean to the east, and the Pacific Ocean to the west.
- The Great Lakes, located on the border of Canada and the United States, contain one-fifth of the world's fresh surface water.
- North America's human geography is very diverse, with bustling modern cities like New York and Toronto alongside ancient historical sites built by indigenous civilisations.

Did you know? Did you know? North America is the only continent that has every single type of climate, ranging from the freezing icy Arctic in the north to the sweltering tropical rainforests in the south!
