

Finn's Busy Harbour

Learning objective: To understand that trade involves moving goods from one place to another using different forms of transport.

Look at the busy harbour scene! Colour in the cargo ship and the little stall. Can you name the items being traded?

Colour this: A friendly, simple line-art scene at a seaside harbour. In the foreground, there is a small wooden market stall with a sign showing a £ symbol, displaying baskets of apples and bananas. In the background, Finn the dolphin is poking his head out of the water near a large cargo ship filled with colourful stacked crates. There is a lighthouse on a small cliff and fluffy clouds in the sky. The lines are bold and clear for young children to colour.

Steps:

1. Label the cargo ship in your picture.
2. Label the market stall where things are sold for £.
