

Max the Monkey's Measuring Garden

Learning objective: To develop understanding of length and height using non-standard and standard units of measurement.

Help Max the Monkey measure things in his garden! Follow the steps below to draw your garden scene and label the items using the words provided.

Draw: Create a garden scene featuring Max the Monkey. The style should be bright and colourful with clear, simple shapes. Include a tall sunflower, a short blade of grass, a long wooden fence, and a garden bench. Ensure there is enough space to draw coins and write labels.

Label words: tall · short · long · wide · measure

Steps:

1. Draw a tall sunflower next to a short blade of grass. Which one is taller?
2. Draw a long fence. Is it longer than your pencil?
3. Max wants to buy some seeds for £2. Draw 2 one-pound coins in the corner.
4. Label your sunflower using the word 'tall' from the word bank.
5. If Max has £5 and spends £2 on seeds, how many pounds does he have left? Draw the coins.
