

Max the Monkey's Multiplication Mastery

Learning objective: To practise formal written multiplication methods and recall multiplication facts for Year 5 learners.

Read the front of the flashcard to test your knowledge. Flip it over to reveal the answer. Use Max the Monkey's tips to help you solve the calculations!

What is the product of 12 and 8?

96

Max has 15 bags of marbles with 12 marbles in each bag. How many marbles does he have in total?

180

What is the formal written method for calculating 432×6 ?

Short multiplication

Calculate 24×13 .

312

If a pack of notebooks costs £3, how much would 15 packs cost?

£45

Define a 'factor'.

A number that divides exactly into another number.

Estimate 49×21 by rounding to the nearest ten.

$50 \times 20 = 1,000$

Solve 7×0 .

0

True or False: Multiplication is commutative (the order of numbers does not change the product).

True

Calculate 12×12 .

144

What is 1,000 multiplied by 5?

5,000

If a banana costs 20p, how much do 14 bananas cost in total?

£2.80
