

Celebrating Our Unique World: Diversity and Inclusion

Be a Bridge Builder: Celebrate Differences and Include Everyone!

- **Diversity** means recognising that every person is unique, from our hobbies and talents to our family traditions and the languages we speak at home.
- **Inclusion** is about making sure everyone has a seat at the table and feels they truly belong, regardless of their differences.
- **Empathy** is our superpower; it helps us listen to others and imagine how they might be feeling, which builds stronger friendships.
- **By learning from one another's different perspectives, we can solve problems in more creative and clever ways.**
- **Respecting others means celebrating what makes them special, even if their way of living or thinking is different from our own.**

Did you know? Did you know? Just like a beautiful mosaic is made of many different coloured tiles, our world is made better by the unique experiences, talents, and backgrounds of every single person. When we include everyone, we create a masterpiece of ideas!

Key vocabulary: Diversity · Inclusion · Empathy · Perspective · Respect · Community
