A World of Wonder: A Creation Story Colouring Page

Learning objective: To explore the concept of the natural world as a gift to be cared for, reflecting on simple creation stories.

Look at the picture of our beautiful world. Use your brightest crayons to colour in the sun, the plants, and the animals. Think about all the special things in nature that make you feel happy.

Colour this: A large, friendly scene featuring Bea the honeybee flying in the centre. Surrounding her are simple, bold outlines of a smiling sun in the corner, a large oak tree with sturdy branches, a flowing river with gentle waves, and two small flowers with round petals. The lines should be thick and clear for easy colouring. Include a small patch of grass at the bottom for Bea to hover over.

Steps:

1. Label the sun in your picture.
2. Label a tree in your picture.
