

Sheet 2: Tens and Ones to 50

Worked example:

Max the monkey says 34 is 3 tens and 4 ones. Look at the table below:

Answer: 34 | 3 tens | 4 ones

- **Fill in the table for these numbers:**

27 42 35 49 21

- **Write the number that has 4 tens and 6 ones.**

Number:

- **Write the number that has 2 tens and 9 ones.**

Number:

- **Write the number that has 3 tens and 0 ones.**

Number:

Self-check: Check that your tens column matches the first digit and your ones column matches the last digit.

Ready for next: Once you can quickly split any number into tens and ones, you are ready to put numbers in order!
