

E-Safety Smart Cards with Kit the Fox

Learning objective: To identify key online safety concepts and understand how to stay safe, respectful, and responsible when using digital devices.

Read the front of the card, think about the answer, then flip to check if you are right. Kit the Fox says: Always think before you click!

What is a 'Digital Footprint'?

It is the trail of information you leave behind when you use the internet, including websites visited, emails sent, and photos posted.

What should you do if someone online makes you feel uncomfortable or upset?

Stop talking to them, close the app, and tell a trusted adult immediately.

Why should you never share your password with friends?

Your password is the key to your personal accounts; sharing it could lead to your private information being accessed or stolen.

What is 'Phishing'?

A trick used by scammers to send fake emails or messages that look real, trying to get you to click a link and reveal personal information like usernames or passwords.

What is meant by 'Personal Data'?

Information that can identify you specifically, such as your full name, home address, school name, phone number, or date of birth.

What are 'Privacy Settings' on a social media app or game?

Controls that allow you to decide who can see your profile, who can contact you, and who can see the things you post.

What is 'Cyberbullying'?

Using digital devices or the internet to deliberately upset, tease, or hurt someone else repeatedly.

Why is it important to check if a website is a 'Reliable Source'?

Not everything on the internet is true. Checking helps you ensure you are learning accurate information rather than false rumours or opinions.

How can you 'Report' content or a user on most online platforms?

By using the built-in 'Report' or 'Flag' button provided by the website or app to alert moderators to harmful behaviour.

Why is it important to manage your 'Screen Time'?

To make sure you have a healthy balance between your digital life and other activities like exercise, sleep, and face-to-face time with family and friends.
