

Finn's Green Planet: Caring for Our Home

Be a Planet Hero! Let's keep our world happy, healthy, and green.

- We can help the planet by recycling paper, plastic, and metal so they can be turned into something new.
- Turning off the lights when we leave a room saves energy and helps our world stay bright and healthy.
- Using a reusable water bottle instead of buying plastic ones saves money—like keeping your £1 coin in your pocket instead of spending it!
- Planting flowers and trees gives bees like Bea a place to live and helps our gardens grow.
- Walking or riding a bike instead of taking a car helps keep the air we breathe fresh and clean.

Did you know? Did you know? Finn the dolphin loves clear, clean oceans! When we recycle our plastic bottles, we stop rubbish from reaching the sea, which keeps Finn's home safe and sparkling.
