

Ellie's Social Studies / History Corner: The Lady with the Lamp

Follow the light to learn about a hero from the past!

- Florence Nightingale was a very kind nurse who worked in a hospital a long time ago.
- She wanted to make sure hospitals were clean and tidy so that people could get better quickly.
- She spent her time helping people who were poorly feel safe and comfortable.
- Florence carried a special lamp so she could see clearly when it was dark at night.
- People remember her today for her bravery and for being a wonderful helper to others.

Did you know? Did you know? Florence Nightingale was called 'The Lady with the Lamp' because she walked through the hospital wards at night carrying a light to check on all her patients while they slept.
