

Max the Monkey's Measuring Garden

Learning objective: To use standard and non-standard units to measure length and height.

Help Max the Monkey measure items in his garden! Colour the picture and then answer the questions below to show what you have learnt about measuring.

Colour this: A large, clear outline drawing featuring Max the Monkey standing in a garden. Max is holding a 30cm ruler. Next to him is a tall sunflower, a short blade of grass, a medium-sized wooden bench, and a pile of three square building blocks. The scene should be simple with thick lines, perfect for colouring. Include a small signpost that says 'Max's Garden' in the corner.

Steps:

1. Label the longest object in the picture.
2. Label the shortest object in the picture.
