

# Max the Monkey's Measuring Garden

*Learning objective: To develop understanding of length and height using non-standard and standard units of measurement.*

Help Max the Monkey measure things in his garden! Follow the steps below to draw your garden scene and label the items using the words provided.

**Draw:** Create a garden scene featuring Max the Monkey. The style should be bright and colourful with clear, simple shapes. Include a tall sunflower, a short blade of grass, a long wooden fence, and a garden bench. Ensure there is enough space to draw coins and write labels.

*Label words: tall · short · long · wide · measure*

## Steps:

1. Draw a tall sunflower next to a short blade of grass. Which one is taller?
2. Draw a long fence. Is it longer than your pencil?
3. Max wants to buy some seeds for £2. Draw 2 one-pound coins in the corner.
4. Label your sunflower using the word 'tall' from the word bank.
5. If Max has £5 and spends £2 on seeds, how many pounds does he have left? Draw the coins.
