

Max's Market Day

Learning objective: To recognise coins and understand the value of money in a simple shopping context.

Help Max the monkey count his coins! Colour in the coins and the fruit, then answer the questions below.

Colour this: A friendly monkey named Max stands behind a small wooden market stall. On the stall, there are three apples labelled '5p', '5p', and '5p'. In front of Max, draw a small pile of round coins. Some coins should have the number '1' on them to represent 1p, and others should have a '2' to represent 2p. The scene should be clear with bold outlines for children to colour in the fruit, the coins, and Max's fur.

Steps:

1. Label the 1p coin in your picture.
2. Label the apple that costs 5p.
