

# Celebrating Together: Festivals Around the World

Join Pip the caterpillar on a journey to discover how we celebrate!

- Many festivals are a time to visit family and share a special meal together.
- Some celebrations use lights, such as candles or lanterns, to make the night feel bright and happy.
- People often wear special clothes or colourful outfits to show that it is a day of celebration.
- Giving cards or small gifts is a kind way to show our friends that we are thinking of them.
- Music and dancing are important parts of many festivals, helping everyone to feel joyful.

*Did you know? Did you know? Festivals happen all over the world! Some festivals use bright colours, some use beautiful lights, and others involve sharing delicious food with our friends and family.*

**Key vocabulary:** Festival · Celebrate · Tradition · Community · Special · Light · Family
