

Zara's Abstract Art Adventure

Learning objective: To explore abstract art by using shapes, lines, and colours to show feelings and patterns.

Follow these steps to create your own piece of abstract art. You do not need to draw real objects. Focus on how the shapes and colours look together.

Draw: Create an abstract artwork. Start by drawing bold lines across your page to divide the space. Fill the empty spaces with simple shapes like circles, squares, or triangles. Use bright coloured pencils or felt tips to fill in the shapes. Make sure some shapes overlap to create new colours.

Label words: shape · pattern · colour · line · texture

Steps:

1. Step 1: Draw three different types of lines in the corners of your paper. Examples: wavy, zigzag, or straight.
2. Step 2: Draw two large shapes in the middle of your page. What shapes will you choose?
3. Step 3: Pick two colours that make you feel happy. Colour in your shapes using these colours.
4. Step 4: Label your drawing. Use two words from the word bank to describe what you have made.
