

Zara's Colourful Easter Art Gallery

Get creative and make your own spring masterpiece with Zara the Zebra!

- Pastel colours like soft yellow, baby blue, and light pink are perfect for spring artwork.
- Symmetry means that if you draw a line down the middle of your art, both sides look exactly the same.
- You can use different materials to add texture, such as cotton wool for fluffy bunnies or shiny foil for eggs.
- Repeating shapes like zig-zags, spots, or stripes creates a bold pattern across your page.
- Mixing colours can help you find the perfect shade to make your painting pop with brightness.

Did you know? Did you know? In many traditions, decorating eggs is a symbol of new life and the start of spring. Artists use bright colours and patterns to celebrate this time of year!
