

Zara's Spooky Art Studio: Halloween Colours and Patterns

Get creative with Zara the Zebra and bring autumn magic to life!

- Warm colours like red, yellow, and orange help your art feel like a cosy autumn day.
- A silhouette is a dark shape seen against a light background, perfect for drawing spooky trees or bats.
- You can use repeating patterns like zig-zags or stripes to make your pumpkin designs stand out.
- Using dark paper with bright pens creates a strong contrast that makes your colours pop.
- Symmetry means both sides are the same; try folding your paper in half to make a perfectly balanced spider web.

Did you know? Did you know? The traditional colours of Halloween are orange and black. Orange represents the harvest and autumn leaves, while black represents the night and mystery. Zara loves to add a splash of purple to make her artwork look even more magical!
