

Celebrate World Book Day with Art!

Get creative and bring your favourite stories to life through art!

- Pip the bookworm caterpillar loves to see how illustrators use bright colours to show a character's mood.
- Zara the zebra thinks that patterns are a brilliant way to make a book cover stand out on the shelf.
- You can use different materials like paper, fabric, or paint to create a collage of your favourite scene.
- Think about the shape of your character. Are they big and round, or tall and thin?
- A good design helps a reader guess what the story might be about before they even open the book.

Did you know? Did you know that illustrators use art to help us imagine the world inside a book? Before words were written down, people used cave paintings to tell stories to their friends and family!

Key vocabulary: illustration · character · texture · primary colours · collage · design
