

Kit's Top Tips for Staying Safe Online

Be a Digital Detective: Stay Safe and Kind Online!

- **Keep your personal information private.** Never share your full name, home address, or school name with people you do not know.
- **Use strong passwords.** Mix letters, numbers, and symbols to keep your accounts safe, and never share them with anyone except your parents or carers.
- **Be kind online.** If you would not say it to someone's face, do not type it. Treat others with the same respect you show in the classroom.
- **If something makes you feel worried, sad, or confused, stop what you are doing and tell a trusted adult immediately.**
- **Not everything you read online is true.** Always check with a teacher or parent if you are unsure about something you have seen.

Did you know? Did you know? Every time you use the internet, you leave a trail called a 'digital footprint'. Just like footprints in the sand, these show where you have been, so it is important to always be careful and positive online!

Key vocabulary: Password · Private · Kindness · Report · Trusted Adult · Digital Footprint
