

Kit's Guide to Staying Safe Online

Be a Clever Clicker with Kit the Fox!

- **Keep your passwords secret. Never share them with anyone, even your best friends.**
- **Only talk to people you know in the real world. If a stranger messages you, tell a trusted adult straight away.**
- **Think before you post! Once something is on the internet, it is very hard to take it down.**
- **Be kind online. If you wouldn't say it to someone's face, don't type it in a message.**
- **If something makes you feel sad, worried, or confused, always show a teacher or a parent.**

Did you know? Did you know? The internet is like a giant library that connects the whole world! Just like you wouldn't give your home address to a stranger in the street, it is important to keep your personal information private when you are online.

Key vocabulary: Password · Private · Internet · Stranger · Kindness · Report
