

Kit's Internet Safety Fact-File

Learning objective: To understand how to stay safe, report concerns, and manage personal information when using the internet.

Help Kit the fox become a Digital Detective! Complete this fact-file to show you understand how to navigate the internet safely and responsibly. Use the word bank to help you complete your answers.

Word bank: Personal information · Password · Report · Block · Privacy settings · Trusted adult · Cyberbullying · Digital footprint

1. Personal Information: Explain why you should never share your full name, home address, or school name online. What should you do if a website asks for these details? (3 marks)

2. Strong Passwords: Kit says passwords are like secret keys. What are three things that make a password 'strong' and secure? (3 marks)

3. Recognising Risks: If you see something online that makes you feel worried, sad, or uncomfortable, what are the steps you should take? (3 marks)

4. Kindness Online: How can you ensure your behaviour online reflects your behaviour in the classroom? Give an example of being a good digital citizen. (2 marks)

5. The Digital Footprint: Explain what a 'digital footprint' is and why it is important to think before you post or share anything. (2 marks)

Extension challenge: Design a 'Safety Poster' for your classroom that features three top tips for staying safe online. Think about what Kit would advise!
