

Textiles and Fabrics Flashcards

Learning objective: To identify and understand basic textile terms and fabric properties for design technology.

Read the front of the card. Try to guess the answer before looking at the back. Use the word bank to help you.

What is a material made from woven or knitted fibres?	What do we call the broad name for all cloth and materials made from fibres?
Fabric	Textile
What is the thin strand used to sew pieces of fabric together?	What is a single loop of thread made by a needle called?
Thread	Stitch
What is the name for the paper shape you use to cut fabric to the right size?	What is a special fabric made by pressing fibres together instead of weaving?
Template	Felt
What is the process of attaching two pieces of fabric together?	What do we call the design or guide used to create a textile product?
Joining	Pattern
Which character likes to find patterns in everything?	Name a tool used to hold fabric pieces in place before you stitch them.
Zara	Pin
What do we use to cut fabric neatly?	What is a soft material used inside cushions or toys called?
Fabric scissors	Stuffing
