

A Starry Night in Bethlehem

Learning objective: To develop descriptive vocabulary and understand the nativity story setting through creative colouring.

Colour in the peaceful scene below. Use bright yellow for the star and soft colours for the night sky. Remember to label the parts of the picture to show what you know!

Colour this: A peaceful, wide-angle line-art drawing of a stable under a starry night sky. In the centre, there is a simple wooden stable with a hay-filled manger inside. Outside the stable, a small sheep and a donkey are resting on the grass. Above the stable, a large, brilliant star with five points hangs in the sky, casting light downwards. The scene should have clean, thick outlines suitable for colouring, with gentle rolling hills in the background.

Steps:

1. Label the bright star in the sky.
2. Label the place where the animals are resting.
