

Pip's Storytime Adventure

Learning objective: To develop fine motor skills through colouring and engage with descriptive language to support early reading comprehension.

Colour the picture below and read the fun facts with your teacher or grown-up. Can you find and label the items in the picture?

Colour this: A large, friendly caterpillar named Pip wearing a pair of round spectacles. Pip is curled up on a large, soft toadstool. In front of Pip, there is an open book with large, clear illustrations of a star and a tree on the pages. Around the toadstool, there are three large flowers with thick outlines for easy colouring and a small watering can resting on the grass. The background features a gentle, smiling sun in the corner and a few fluffy clouds.

Steps:

1. Label the book that Pip is reading.
2. Label the caterpillar in the picture.
