

Finn's Climate Sorting Challenge

Learning objective: To identify the characteristics of different climate zones across the world.

Finn the dolphin has travelled all over the globe! Look at the descriptions below. Sort each one into the correct climate zone: Polar, Temperate, or Tropical. Write the name of the climate zone in the box next to the description.

Word bank: Polar · Temperate · Tropical

1. This place is very hot and rainy all year round. It has thick rainforests. Climate zone: _____ (2 marks)

2. This place is extremely cold with lots of ice and snow. It is very hard for plants to grow here. Climate zone: _____ (2 marks)

3. This place has four distinct seasons. It is not too hot and not too cold. The UK is in this zone. Climate zone: _____ (2 marks)

4. Choose one climate zone. Write one thing you would wear if you lived there. (2 marks)

Draw: Draw a picture of what a 'Temperate' forest looks like in the autumn. Remember to draw colourful leaves on the trees!

Extension challenge: Finn wants to visit a new place! Which climate zone would you like to visit? Write one sentence to explain why.
