

Finn's Map Adventure

Learning objective: To develop an understanding of basic map symbols and spatial awareness.

Look at the map below! Finn the dolphin is planning an adventure. Colour in the map and use the labels to show where he is going.

Colour this: A simple, friendly map illustration. In the centre, there is a winding blue river. On the left side of the river, draw a tall, leafy tree. On the right side of the river, draw a small cottage with a path leading to it. In the bottom corner, draw Finn the dolphin wearing a little explorer's hat and holding a compass. Include a 'compass rose' symbol in the top corner with an arrow pointing North. Use bold, thick outlines suitable for colouring.

Steps:

1. Label the river in your picture.
2. Label the tree in your picture.
3. Label Finn the dolphin in your picture.
