

Finn's Volcano Flashcards

Learning objective: To identify and define key terms related to volcanoes as part of Year 4 Geography.

Read the front of the card. Think about the answer. Flip the card over to see if you are right. Use the word bank to help you.

What is a mountain that opens to the Earth's hot inside?

Volcano

What is hot liquid rock found deep underground?

Magma

What is liquid rock called when it flows out of a volcano?

Lava

What do we call it when a volcano throws out smoke and lava?

Eruption

What is the bowl-shaped opening at the top of a volcano?

Crater

What is the tube or opening that lava travels through?

Vent

What is the name for the tiny, grey pieces of burnt rock that fly into the sky?

Ash

What are the giant, moving pieces of Earth's outer shell called?

Tectonic Plates

What do we call a volcano that is currently erupting?

Active

What do we call a volcano that is 'sleeping' and has not erupted for a long time?

Dormant
