

Ellie's Ancient Egypt Adventure

Step into the desert and discover the wonders of the Nile!

- The River Nile was the lifeblood of Ancient Egypt, providing water for crops and a way for people to travel.
- A Pharaoh was the powerful ruler of Ancient Egypt who lived in a grand palace.
- The Great Pyramids were built as grand tombs for the Pharaohs to rest in after their lives on Earth.
- Hieroglyphs were a clever way of writing using pictures and symbols instead of an alphabet.
- Ancient Egyptians believed in many gods and carefully preserved their ancestors as mummies.

Did you know? Did you know? Ancient Egyptians invented a special type of paper called papyrus, which they made from reeds that grew along the riverbanks!
