

Max's Shape Sorting Adventure

Learning objective: To identify and describe 2D shapes based on their properties, including sides and lines of symmetry.

Max the monkey has mixed up his shape collection! Look at the shapes below. Draw a line to match each shape to its correct description. Use the word bank to help you complete the sentences.

Word bank: Square · Rectangle · Triangle · Parallel · Symmetry · Sides

1. 1. This shape has four equal sides and four right angles. It is a _____. (2 marks)

2. 2. This shape has three sides and three corners. It is a _____. (2 marks)

3. 3. This shape has two pairs of equal sides. It is a _____. (2 marks)

4. 4. If you can fold a shape in half so both sides match perfectly, it has a line of _____. (2 marks)

Draw: Draw a square and use a ruler to draw one line of symmetry through the middle of it.

Extension challenge: Max has £5.00. He wants to buy a shape stencil that costs £2.50. How much change will Max get? Write the calculation.
